The Assassination of D'Arcy MeGee.

Sentence of Whelan.

He is to be Hung December 10th

OTTAWA, Sept. 15.—A large crowd was outside of the court room this morning, but very few were were admitted. The prisoner, on being brought into court, looked pale and nervous. The jury having been called, and answering to their names, they were asked the usual question, when the foreman replied that they had found the verdict of guilty.

The prisoner heard the anouncement with great composure, and theu made a long address to the court, in which he very emphatically but calmly asserted his entire innocence of the crime. He denied having any connection with Fernanism, and declared that he had been condemned because he was a Roman Catholic; that the evidence had been deliberately given to convict him ite was going on to speak of the cruel treatment of Irishunen by the English Government, when he was interrupted by the Chief justice, whe pointed out to him that whatever might be the case elsewhere, in this country Irishunen and all other classes were treated alike before the law and that he could have no reasonable grounds for complaint.

After solemuly cautioning the prisoner against entertaining any hope of pardon, and imploring him to prepare for the future, his Lordship sentenced him to be executed on Thursday, the 10th day in the city.
